

# ACTRON E-mobility Solutions

## xEV Power Modules

- Automotive Applications
- 750V / 820A IGBT ; 1200V / 380A IGBT  
1200V / 450A SiC
- 6 in 1 (Full-Bridge) Topology
- Motor Drives
- Direct Cooling
- PressFit contact designed

## Charging Modules

- Automotive & Industrial Applications
- 1200V / 450A IGBT & SiC
- 2 in 1 (Half-Bridge) Topology
- SiC-MOSFET & SBD as a Switch (Option)
- Motor Drives
- EV Fast Charging
- Industrial Automation & Testing

**Inverter**

**OBC**

**Converter**

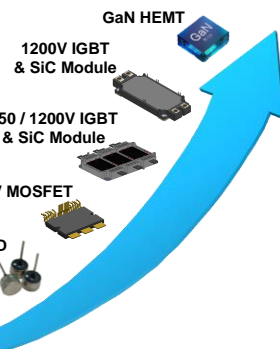

**PSU**

## ACTRON Technology Corp.

**Founded** : Nov. 17, 1998 [www.actron.com.tw](http://www.actron.com.tw)  
**Company Type** : Public (TWSE: 8255)  
**Business** : Design / Manufacturing of Automotive Elec. Components  
**HQ** : Tao-yuan, Taiwan  
**Products** : Automotive SiC MOSFETs / IGBTs, Pressfit Diodes, Regulators, ABS/EBS Core/Coils, Solenoid Valves

We provide the best IGBT / SiC / GaN power module for EV and EV-Charger

Automotive Diode
